Cambridge Sound Management, LLC, located in Cambridge, MA, is the developer of Qt Quiet technology™, a low-voltage distributed audio system for sound masking, paging and background music distribution in the workplace. Our systems are sold direct and by select partners worldwide; they are deployed in over 7 million square feet of space. Installations range from modest home offices to spaces of unlimited size. Applications range from providing acoustical comfort in open workspaces to settings such as doctor's offices, where sound masking is used to ensure confidential speech privacy.

Qt Quiet technology™ is a trademark of Cambridge Sound Management, LLC.
